

Name : Uday Mourya

5 Year Goals

In the next 5 years, my main Career goals are to become highly skilled in full-stack development and also take on a leadership role. I also want to enhance my soft skills such as Communication, presenting and I want to be a part of dynamic team pushes the boundaries of technology, solving complex problems and making a meaningful impact on society.

In my dream I have Big Luxurios House and two to three high-end vehicles and I have earned so much money in 5 years that I don't have to think about buying anything and I don't have to think about helping anyone in need.

Another facet of my dream is to mentor and inspire the next generation of IT professionals.

Ultimately my dream involves entrepreneurship in five years. I hope to explore possibility of launching my tech startup, focused on solving real world problems or innovative solutions. and also I want to build a luxury hotel. I want to be entrepreneur.
